CORE EXPERTISE

Backend Engineering
Custom, modular Laravel platforms with complex domain logic, tuned for large datasets and real-time users.

Full-Stack Delivery
Next.js frontends on Laravel APIs; ownership of CI/CD, deployment automation, server management and monitoring.

Application Security
Working knowledge of ethical hacking and penetration testing — security built in, not bolted on.

EXPERIENCE

Mar 2026 — Present
Intermediate Software Engineer
JB Connect Ltd. · Banani, Dhaka
Backend-focused Laravel development integrated with modern Next.js frontends; clean architecture and responsive full-stack solutions.

Jan 2024 — Dec 2025
